Operational Health

Latest partner performance — Uptime vs 95% target; PNA/Cancels vs PETS (August 2026)

Operating Store Uptime

98.0%

Comparison unavailable

3.0 pp better than 95% target

Partner PNA

0.0%

Comparison unavailable

6.1 pp better than PETS

Partner Cancels

0.0%

Comparison unavailable

2.5 pp better than PETS

Interpretation

Uptime is evaluated against a 95% operating target. Lower is better for PNA and Cancels. Green indicates improvement; red indicates deterioration. Uptime coverage: 1/1 operating store. Missing current store records: 0.

Top GMV Stores

2026-08

Reported partner GMV: €8,000

How We Prioritize Opportunities

2026-08 · Higher Priority = stronger case for action

SEVERITY — 0–100

How large is the KPI problem?

Compared with the relevant SBU benchmark or operating target.

Evidence volume and confidence are considered. Larger reliable negative gaps create higher Severity.

Dominant-KPI protection keeps a major problem from being hidden by healthy KPIs.

IMPACT — 0–100

How much business exposure sits behind the problem?

Order-related exposure behind the KPI gap. Higher-volume problems generally create higher Impact.

Not euros. Not guaranteed recovered orders. Not a financial forecast.

PRIORITY — 0–100

Where should we act first?

Metric Priority =
KPI Severity × KPI Impact / 100

Store Priority combines eligible KPI-level priorities, with dominant-KPI protection so one major issue cannot be diluted.

PRIMARY ACTION KPI

The KPI with the strongest paired business case for action at that store.

BASE ACTION RULE · Priority ≥ 5.0

The 5.0 threshold remains provisional. V2.1 overrides can classify lower-score stores ACTION.

Priority ranks stores. Separate V2.1 triage assigns ACTION / MONITOR / HEALTHY / UNCLASSIFIED (six ACTION stores shown by default).

Missing evidence → incomplete assessment, not zero. Critical observations are reviewed separately from business Priority.

Exposure components may overlap; headline exposure uses the largest. An opportunity signal, not a recovery promise.

Uptime: 95% target; restoration exposure uses healthy history where available.

Benchmark: 2026-08. SBU peer composition is not available.

Priority Opportunities & Actions

2026-08 · V2.1 business triage · Priority ranking remains unchanged

No stores classified ACTION under the current V2.1 rules.

MONITOR, HEALTHY and UNCLASSIFIED remain separate.
Review operational/data observations and Appendix context.

Next review

1. Confirm priority stores
2. Assign owner / deadline
3. Track progress next review

Operational & Data Review

Critical observations and hygiene remain visible independently of business Priority

0 items to review

0 stores affected

0 critical observations

No operational or data review items

No items in this list. See the separate review and diagnostic sections.
